

Heaven's Optimistic Outlook for Planet Earth

According to the spirits in Heaven, we're all on a great adventure here on Earth together. And because we're struggling mightily on our journey, they have a plan to help us out.

Despite the many problems on our planet about which Lily and friends expressed concern, they were decidedly optimistic about humanity's future. Demonstrating an inclination to accentuate the positive, the Spirit Guides explained that humankind needs to build upon the existing pockets of progress in our world. Emphasizing that we must generate more and more momentum toward the happy future we all want, the Guides stressed the importance of "glorifying good deeds":

We need to glorify good deeds, no matter how small. The little things we do for each other will influence the entire world. We need to set, like wildfire, a chain reaction where people want to continue spiritually, while still going on with their lives.

What needs to happen is a small chain of events to get this thing running. I don't mean just the book, but the small chain reaction of nice deeds going around the world like wildfire.

We need to get the word out. We need to keep in mind how important each and every step we take is. What the world needs to do is take as many steps in the right direction as possible.

Fueling the Earth's people will not take a large spark. They are ready for a change and want to be good and want to get going on this. Even people who are dark are getting tired of the permeating darkness.

Everyone needs light. And the darkness is smothering that. But the light's starting to burst out at the seams, because there is a real desire to get back to doing good.

We must start in with light and continue to start each day with a renewed joy for the planet and the lighter side of life. We need to start together, so many lightened souls who are on this side [can] complete their missions by coming back to the new Earth so we can brighten it up even more. This is such a beautiful place on Earth. We will be so happy to see our plan of action shown to the golden souls who occupy this beautiful planet.

Action is the key word here. Action of all peoples, parties. All nations, all people of all creeds, and one idea of love and harmony in the Earth and peace in the hearts of men. For that is the whole purpose of this book: [It] is so people of all nations, creeds, colors, and diversity can live, work, and, yes, play here on this Earth together.
